No. 171 -Edn (CS)/ 2L-37/2017

Date: 15.02.2018

ORDER

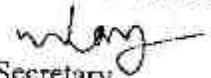

The West Bengal Universities and Colleges (Administration and Regulation) Act, 2017 has come into effect from 1<sup>st</sup> April, 2017. The provisions of sub-section (4) of section 10 of the said Act empower the State Government to prescribe the terms and conditions of service of all employees of Government-aided Colleges of West Bengal. Further the provisions of section 22 of the Act have saved all Orders/ Notification/ Rules issued by the State Government which were issued before the enactment of the Act. The provisions of section 21 of the said Act also override any earlier Act which deals with the similar subject matter.

It is now clarified, that the Uniform Leave Rules issued by this Department vide No. 762-Edn (CS) dated 03.12.2008 regulating the leave and related matters of the teachers and other academic staff of Government-aided Colleges are very much effective and there is no need of incorporating the same in the Statutes of the Affiliating Universities, since, the subject matter prescribing terms and conditions of service of the employees of Government-aided Colleges is no longer the subject of the Statutes of the affiliating Universities and the Uniform Leave Rules issued by this Department are in no way inconsistent or contradictory to the provisions of the above mentioned Act.

Hence, in this regard, I am directed to say that all concerned should follow the Uniform Leave Rules prescribed under this Department's Notification No. 762-Edn (CS) dated 03.12.2009 without insisting on the incorporation of the same in the Statutes/ Ordinances/ Regulations of the affiliating Universities.

In this connection, I am also directed to say that all State-aided Universities having provisions for making Statutes/ Ordinances/ Regulations, for prescribing Leave Rules for employees of affiliated colleges, shall remove the provisions from their Statutes/ Ordinances/ Regulations, as the case may be, by way of amending the same, i.e. Statutes/ Ordinances/ Regulations, as the case may be.

**Analysis Of B.A (HONOURS/GENERAL) Students Feedback on Teaching-Learning Experience 2021-2022 :**

- Student feedback is especially relevant in program delivery. To enhance learning experience and based on student's feedback we have committed to strengthening professional development for faculty on the use of educational process.

Faculty support for student's feedback survey is the driver in increased students participation and quality of responses. Faculty members at Vivekananda College are key advocates for the course feedback survey process. The feedback we receive from our students is fundamental to our continued success.

Teachers play a pivotal role in any educational setup. When the teachers are proficient and impart quality education then the student learning outcomes will be good. Our college has conducted student feedback survey frequently to analyse teaching standard. There are two main advantages of doing student feedback survey. Firstly, teachers can brush up their skills and develop better ways after analysing their performance through student feedback and secondly, the outcome of these student survey can help the academic staff to make vital decision in relation to teaching. The results procured from student surveys can be effectively utilised to refine and evolve various teachers training programme, teaching methodology and skills.

- **METHODOLOGY** : This student feedback observational study was conducted at our college premises. This study was done among the undergraduate students of Arts faculty. The total number of students willingly completed and return the questionnaire were 140. We had collected feedback data from the different disciplines (Hons/General) courses combinedly; namely, English, Bengali, History, Political Science, Education, Philosophy, Geography, Sociology, Sanskrit and Physical Education. Physics, Chemistry, Mathematics. In the questionnaire total number of 13 questions were formulated. An appropriate closed ended questionnaire was designed and reviewed for collecting data. The tool was found to be highly reliable. The questionnaire was capped for honest and accurate responses. The first section of the questionnaire contained demographic data such as name, age, gender and course of study. In the next section of questionnaire a total number of 13 questions were formulated.

The questionnaire consists of total 13 close ended questions where students are allowed to comment according to their experience.

### Feedback process of the Institution

The College is keen on assessing the feedbacks of its stakeholders namely students, Teachers and employees. After receiving the feedbacks in the structured format, the IQAC analysis them and it is then intimated to the Teacher council and the Governing Body.

### Teachers feedback

The institution collects feedback from Teacher, which is inclusive of points like programme organized by college, in stipulated time of the session, for active reflection on the effectiveness of teaching and college infrastructure. The feedback collected from teachers is in the form of questionnaire with some rating scales. With regard to the observation about the programme organized by college, teachers opined that it is good for them. Another point is growing up throughout the session, many of them told that their communication skills are improved and they received new informations. The feedback of the teachers noticed by the IQAC that the college infrastructure is good for effective learning but it should be upgraded with new technologies. Teachers are agreeing with the session which promotes active reflection on the effectiveness of teaching. The following suggestions have been noted from the observation of feedback from noted down by different teachers.

### Employer's feedback

The IQAC coordinator initiated a feedback mechanism by the Employer of the college. This report is based on a study of teaching and non- teaching staff conducted on the implementation of teaching and non-teaching staff's performance measures that are highlighted. (Teaching & non-teaching staff) performance evaluation systems are a potential mechanism for improving student achievement by increasing the effectiveness of the academic workforce. Analysis Of B.A (HONOURS/GENERAL) Students Feedback on Teaching-Learning Experience 2020-2021:

.. Student feedback is an indispensable part for the delivery of a programme. For the development and enhancement of the learning experience the college has to be committed in strengthening the proficiency of the faculty and the education process.

The faculty of the college thoroughly helps the concerned authority to collect the student's survey and responses. Faculty members at Vivekananda College are key advocates for the student feedback survey process. The feedback we receive from our students is fundamental for the successful progress of the college.

Teachers play the cardinal role in any educational setup. When the teachers are proficiently impart quality education then the student learning outcomes will be good. Our college regularly conducted student's feedback survey frequently to analyse teaching and other curricular standards. There are two main advantages of doing student feedback survey. First, teachers can fine tune their skills and develop better ways after analysing their performance through student feedback and secondly, the outcome of this student survey can help the academic staff to make vital decisions in relation to teaching. The results procured from student survey can be effectively utilised to refine and evolve various teachers training programmes, teaching methodology and skills.

.. **METHODOLOGY:** The student feedback observational study was conducted at our college premises. This study was done among the undergraduate students of Arts faculty. The total number of students who willingly completed and returned the questionnaire were 175. We had collected feedback data from almost all the disciplines (Hons/General courses combined) namely, English, Bengali, History, Political Science, Education, Philosophy, Geography, Sociology, Sanskrit and Physical Education. Physics, Chemistry, Mathematics in the questionnaire total number of 10 questions were formulated. An appropriate closed ended questionnaire was designed and reviewed for collecting data. The tool was found to be highly reliable. The questionnaire was capped for honest and accurate responses. The first section of the questionnaire contained demographic data such as name, age, gender and course of study. In the next section of questionnaire a total number of 10 questions were formulated.

Students are directed to provide their feedback on the basis of their experiences gathered in the college. Study unit evaluation is formed during each year. With the computation of the IQAC-NMAC session the students are asked to take the survey. The questionnaire consists of total 13 close ended questions where students are asked to share their experience.

### Feedback process of the Institution

The College is very particular about assessing the feedbacks of its stakeholders namely students, Teachers and employees. After receiving the feedbacks in the structured format, the IQAC analyses them and it is then intimated to the Teacher council and the Governing Body.

### Teachers feedback

The Institution collects feedback from Teacher, which is inclusive of points like programme organized by college, in stipulated time of the session, for active reflection on the effectiveness of teaching and college infrastructure. The feedback collected from teachers is in the form of questionnaire with some rating scales. With regard to the observation about programme organized by college, teachers opined that it is good for them. Another point is the benefit of the programme about which few teachers opined that the survey has helped the teachers to update this study material growing up throughout the session, many of them told that their communication skills are improved and they received new informations. The feedback of the teachers noticed by the IQAC that the college infrastructure is good for effective learning but it should be upgraded with new technologies. Teachers are agreeing with the session which promotes active reflection on the effectiveness of teaching. The following suggestions have been noted from the observation of feedback from noted down by different teachers. There is need for IC classroom and also new computers for the easy working teachers and students.

### Employer's feedback

The IQAC coordinator initiated a feedback mechanism by the Employer of the college. This report is based on a study of teaching and non-teaching staff conducted on the implementation of teaching and non-teaching staff's performance measures that are highlighted. (Teaching & non-teaching staff) performance evaluation systems are a potential mechanism for improving student achievement by increasing the effectiveness of the academic workforce. As part of the study 10 criteria were provided and following performance measures were given.

**Action Taken Report (ATR) for the session 2020-2021**

Suggestions	Action taken
1. Infrastructure for online based class	1. We installed more computers along with better internet facilities which quite helpful for taking the classes.

Students provide us with the feedback keeping harmony with the experience gathered in the college. Study unit evaluation is formed during each year. Towards the completion of the teaching period students are invited to complete the survey questionnaire. The questionnaire consists of total 13 close ended questions where students are asked to answer according to their experience.

### Feedback process of the Institution

The College is keen on assessing the feedbacks of its stakeholders namely students, Teachers and employees. After receiving the feedbacks in the structured format, the IQAC analyses them and it is then intimated to the Teacher council and the Governing Body respectively.

### Teachers feedback

The Institution collects feedback from Teacher, which includes of points like programme organized by college, in stipulated time of the session, for active reflection on the effectiveness of teaching administration and college infrastructure. The feedback collected from teachers is in the form of questionnaire with some rating scales. So for the teachers opinion are concerned the programs are satisfactory for them. Another point is the benefit by the programme about which few teachers opined that their knowledge is adding up throughout the session, many of them told that their communication skills are improved and they received new information's. The feedback of the teachers noticed by the IQAC that the college infrastructure is good for effective learning but it should be upgraded with new technologies. Teachers are agreeing with the session which promotes active reflection on the effectiveness of teaching. There are the following suggestions have been noted from the observation of feedback from noted down by different teachers.

### Employer's feedback

The IQAC coordinator also initiates a feedback mechanism by the Employer of the college. This report is based on a study of teaching and non- teaching staff conduct and performance. **Analysis Of B.A (HONOURS/GENERAL) Students Feedback on Teaching-Learning Experience 2019 :**

•• Student feedback is especially relevant in program delivery. To enhance learning experience and based on student's feedback we have committed to strengthening professional development for faculty on the use of educational process.

The results procured from student surveys can be effectively utilized to refine and evolve various teachers training programme, teaching methodology and skills.
